

QUALITY, ENVIRONMENTAL, OCCUPATIONAL HEALTH & SAFETY
and ENERGY POLICY

As an Educational Institution;

Our fundamental objective is to contribute to the development of lifelong learners who are cognizant of their national values, possess high environmental awareness, demonstrate respect for nature and humanity, and adopt the principle of sustainable energy; to remain innovative; to exercise analytical reasoning; to maintain a holistic perspective; and to ensure the continuous improvement of our Quality, Environmental, Occupational Health and Safety, and Energy Management Systems.

Furthermore, we are responsible for providing a healthy and safe environment for everyone on our campus, reducing our impact on the environment, protecting the natural balances and the environment on our campus, and ensuring the efficient use of energy.

Our students, their parents, our employees, visitors, suppliers, and subcontractors are part of this responsibility.

Within the scope of our Quality, Environmental and Occupational Health, Safety and Energy Management System, we declare and undertake to:

- Fulfill the requirements of the Ministry of National Education, the VKV, and other national and international authorities governing our activities,
- Ensure the existence of information and resources necessary for the realization of the objectives and targets of the Management Systems,
- Fulfill the legal and other requirements related to our activities in order to protect the environment, create a healthy and safe working environment, and use energy efficiently,
- Support the acquisition of equipment and services that ensure efficiency in Quality, Environmental, OHS and Energy performance,
- Support design activities that consider the improvement of Quality, Environmental, OHS and Energy performance,
- Provide a healthy and safe work environment on campus in order to prevent injuries and health problems and fight against epidemics,
- Prevent the harm we give to the environment and the pollution caused by our activities to protect the flora and fauna surrounding us,
- Eliminate dangers and reduce risks by managing the OHS risks,
- Consult the employees and their representatives and ensure their participation,
- Maintain open and transparent communication regarding the management systems;
- Involve and encourage our colleagues to maximize their positive contributions to the Quality, Environmental, OHS, and Energy Management Systems, and provide the necessary training;
- Ensure the continuous improvement of the Management Systems and our Quality, Environmental, OHS, and Energy performance while monitoring student and parent satisfaction.

Güray ERKOL
